

## Technology:

*Pre-K - Kindergarten students have been learning how to:*

- Maneuver the computer mouse, using the left clicker, to help them explore and engaged in computer-based instructional activities.

*1st - 2nd grade students have been learning how to:*

- Log on and off the computer, using their username and password.
- Explore and engage in computer-based instructional activities.

*3rd-5th grade students have been learning and practicing:*

- Typing fluency and accuracy.
- Filling out interview forms.
- Creating 3-paragraph documents, resulting from data reported during Peer-to-Peer interviews.

### **The student of the Month of August for Technology**

**Class** is Jeffrey Ringgold in Ms. Brock's Pre-K class.

Jeffrey shows self-control by being safe, respectful, and responsible when working in the computer lab. He remains seated at her computer station. He raises her hand for assistance. He stays focused when working on assigned computer activities.

## Academic Enrichment:

This month in Academic Enrichment students are working on understanding history, especially the history of the Upton community. We are looking up African Americans that played a role in the city of Baltimore. Students will create a poster and hang it up on the bridge leading to the cafeteria.

The AE student of the month is D'Andre Chapman. He shows respect to others and his ability to help others is amazing.

## Gym:

Students will continue to work on their locomotor skills.

Students are able to identify locomotor skills and incorporate them into physical activity that increases their heart rate. I will assess their cognitive health- related physical fitness, psychomotor skills (what they can do) through observations, Q&A sessions, self-evaluation of performance and progress, in class activities where students informally present their results and student feedback by answering questions about the instructions.

Christopher Williams exhibits respect each time he comes to the gym. He is always respectful to his classmates and teachers. He sets an example for his peers in class and in the hallways. Christopher Williams, you rock.

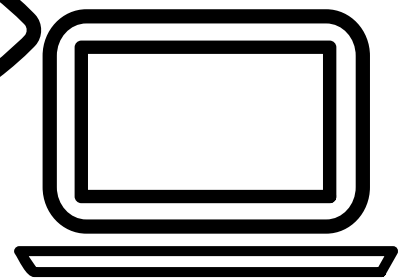

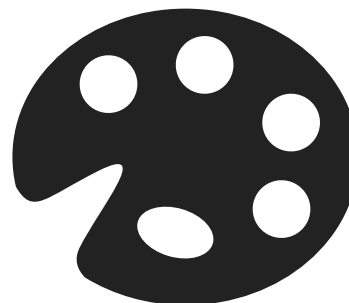

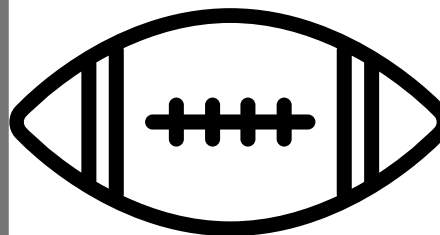

## Art:

Students are continuing to study the elements of art. We have learned about the color wheel, portraits, and symmetry.

We will also be completing fall themed projects.

### **The student of the month for Art is 5th grader Christopher Williams.**

Christopher shows respect to his teachers and classmates. Christopher respects the school and the materials in the art room. He is always respectful in his words and actions.

## Specials Team

**Technology:** Ms. Hall

**Gym:** Coach Duncan

**Art:** Ms. Shipman

**AE:** Mr. Hardy
